# Transit Revenue

Proposition A, a ballot measure approved by the voters in Los Angeles County in 1980 provided financing for lower bus fares, local transit improvements, and construction of a rapid transit system. Proposition A increased the sale tax in Los Angeles County by 1/2 percent. Every tax incorporated city in Los Angeles County receives a direct allocation of sale tax revenues for local transit improvements based on the population of each jurisdiction.

Service in the unincorporated area of Los Angeles and Oak Park is financed through funds provided by the County of Los Angeles and Ventura. This demand response paratransit service will provide an internal transportation system for our citizens at a minimal cost to the rider.

Local transit funds will also be used for Special transit trips and bus stop and park and ride lot maintenance.

The City of Agoura Hills has acquired the use of vans that are accessible to the disabled. If you could benefit from this service and would like to make arrangements for its use please inform the dispatcher when you call.
